Occupational Skills Mapping for 24/7 AI
Career Cyber-coaching

Katy Börner & Michael Ginda

Intelligent Systems Engineering  Indiana University
Goals

• Workers, career coaches, and employment agencies need actionable insights on the evolving labor market
  – Global understanding of occupations and skills outlooks, employment risks
  – Local, actionable data and resources

• Develop occupation and skills maps that can be used as part of career counseling services to guide workers in response to regional and national labor market trends, supply chain issues, or pandemics.

• Focus on strategic areas of needs such as
  – Microelectronic and packaging engineering, embedded systems/system on a chip (soc), supply chains.
Occupation and skills network analysis

**O*Net**
- Occupations
- Skills
- Abilities
- Knowledge

**BLS**
- Statistics
  - Employment Totals
    - Current
    - 10 year projections
  - Mean wages
    - Hourly
    - Annual
  - Industry Profiles
Circle pack layout based on two clustering algorithms.
